The eMuseum is an important platform for historical records, which will serve to register the achievements of Paralympic athletes. Paralympic athletes don't always have the space they deserve, and the eMuseum will certainly fill an important gap. Brazil made history in 2016, when Paralympic Brazil won the record for medals in the history of the Paralympic Games; 72 medals, 14 gold, 29 silver and 29 bronze. And Brazil now, on the route to the land of the rising sun, has the hope and expectation of going even further, making millions of Brazilians proud.
