

THE FUTURE OF SPORTS MEGA-EVENTS - INNOVATIONS FOR AFTER THE 2014 FIFA WORLD CUP AND THE 2016 OLYMPIC AND PARALYMPIC GAMES

This book works as a digital platform with no commercial purposes and with free access to users, keeping the authors' rights, but allowing copies and the exposure of texts with the authors' identities, the titles of the contributions and the acknowledgement of the source.

The objective of this publication is to create an environment of scientific and technological innovation in the areas of sports, physical education and physical exercises based on the recommendations of Olympic Agenda 2020, issued by the International Olympic Committee in December 2014.
